

1, PTFE HOSES (HIGH PRESSURE) FOR IRONS

- 1, Fine high quality PTFE 0.55mm thickness to 1mm thickness for option.
- 2, Sizes: 4.2mmX5.8mm and 5mmX7mm (inner diameter X outer diameter)
- 3, Braided PTFE hoses in 4-layers (fiber-glass, steel, polyester, and nylon)
- 4, Copper fittings and stainless steel connectors for No steam leaking, NO water leaking.

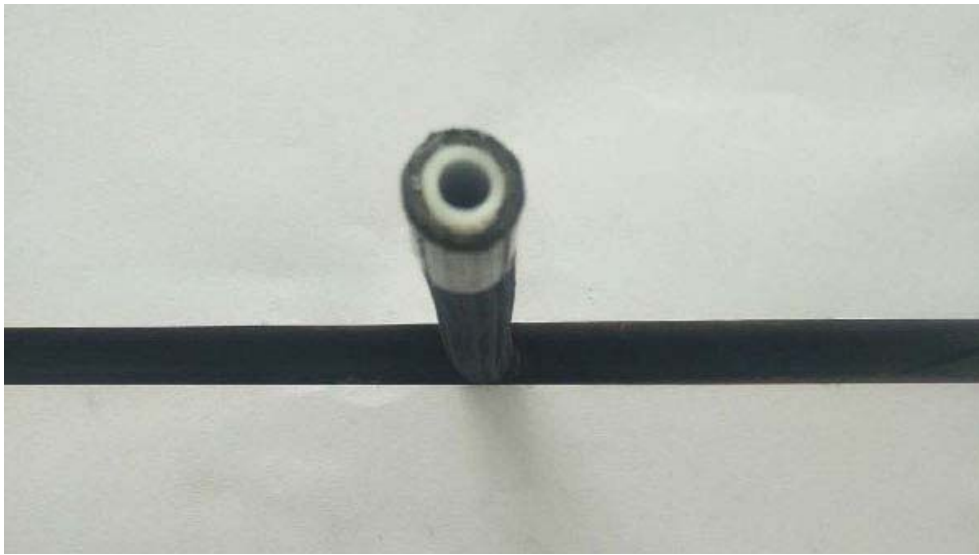

The above pictures show Fine quality PTFE, braided with fiber-glass, steel, polyester and strong nylon

The above pictures show copper fittings, and stainless steel connectors.

2, SILICON HOSES FOR IRONS

- 1, New fine silicon size as 6x10mm (inner diameter X outer diameter)
- 2, Braided silicon hose in 3-layers (fiber-glass, polyester, and strong nylon)
- 3, For irons for out-flowing water.
- 4, 50 meters per roll for the silicon hoses.

3, ELECTRIC STEAM IRONS

- 1, patented special designed iron sole base for better steam flowing and ironing effect.
- 2, imported heating element and temperature switch button for temperature control.
- 3, NO water leaking and for 1-year guarantee.

4, VACUUM BOARD HR-1218

- 1, Heaters 1200W+650W (for table and arm)
- 2, Vacuum 850W
- 3, working table size: 122X76X80cm
